OBJECTIVE

Biomedical Engineering Technology student looking for an entry-level IT support or biomedical equipment technician role where I can use my hardware, software, and customer service skills.

EDUCATION

Florida State College at Jacksonville (FSCJ) Expected 2028
A.S., Biomedical Engineering Technology (in progress)

Sandalwood High School Class of 2024
High School Diploma

RELEVANT COURSEWORK

CTS1131C – Hardware Configuration
- Troubleshot and fixed PC hardware issues, including installing parts, BIOS setup, and connecting peripherals
- Built and tested desktop computers in a lab setting

CTS1133C – Software Configuration
- Installed and configured Windows and applications on NETLAB virtual machines
- Solved software and system setup problems in virtual lab exercises

CTS1154C – Technical Support
- Practiced active listening and customer-focused communication when helping users with tech problems
- Researched IT jobs, wages, and career paths using Bureau of Labor Statistics data

EET1084C – Survey of Electronics
- Measured and tested circuits with a Fluke digital multimeter and an oscilloscope
- Built and simulated circuits in the Falstad simulator and completed labs on AC circuits and magnetism

ENC1101 – English Composition I
- Wrote clear, organized papers with correct grammar, spelling, and punctuation

EXPERIENCE

Mezza Luna, *Neptune Beach, FL* Oct 2022 – Present
Server Sept 2026 – Present
- Take orders, serve guests, and handle payments accurately
- Give friendly, attentive service in a busy restaurant

Barback 2023 – 2026
- Kept the bar stocked, clean, and ready during busy shifts
- Worked closely with bartenders and staff to keep service moving

Busser 2022 – 2023
- Cleared and reset tables quickly to keep the dining room running smoothly
- Helped servers and kept work areas clean

Firehouse Subs, *Team Member* Feb 2022 – Oct 2022
- Took orders and helped customers in a fast-paced setting
- Prepared food and kept the work area clean and organized

SKILLS

Hardware troubleshooting • Windows installation and configuration • NETLAB virtual labs • Multimeter and oscilloscope basics • Customer service • Microsoft Word, Excel, and PowerPoint • GitHub
